

# Molecular Interactions Core Price List

Minimum 1 hour

| Instrument/Device/service                      | Cost Per Hour | Training Per Hour |
|--|---------------|-------------------|
| Microscale Thermophoresis (MST)                | \$35          | \$50              |
| Dynamic Light Scattering (DLS)                 | \$35          | \$50              |
| Jasco (CD)                                     | \$35          | \$50              |
| Fourier Transform Infrared Spectroscopy (FTIR) | \$35          | \$50              |
| UV-Vis Spectrophotometer                       | \$35          | \$50              |
| Surface Plasmon Resonance                      | \$35          | \$50              |
| Computer Aided Drug Design (CADD)              | \$100         | \$150             |

For MST - please inquire for the capillary charges and labeling dye charges.

For DLS - We will provide cuvettes for size determination. For Zeta potential, please inquire for the prices

For CD - We can provide the cuvettes and adapters. However, we encourage to bring your own.
