FAQs

Q1. What if direct sponsor = nonprofit and we don't know upstream (i.e. donors) or there are multiple upstream sources? **Leave primary sponsor blank and use nonprofit as sponsor.**

*Sponsor ID 8899002757 MARCH OF DIMES FNDTN
Primary Sponsor

Q2. If the sponsor is NIH, do we need to list HHS as the primary sponsor? Another example: sponsor is NIFA. Does USDA need to be selected as well for primary? **No. Just use the most granular (detailed) known entity that is available to be selected in PS as the direct sponsor.**

Q3. If the sponsor is the state (e.g. MO dept of transportation) and the primary sponsor is federal (US dept of transportation) do both need to be listed? **Yes, if you know the upstream funder, please put it in. You may not always know and that's ok to leave blank in this case. You might know it is federal but are not sure exactly what agency. In this case, you can leave the primary blank as well.**
