OLD MISSOURI  
Old Missouri, Fair Missouri! Dear Old Varsity!  
We are here, that Family Love There, Here's A Health To Thee!

TRADITION

# WHAT IS PIVOT?

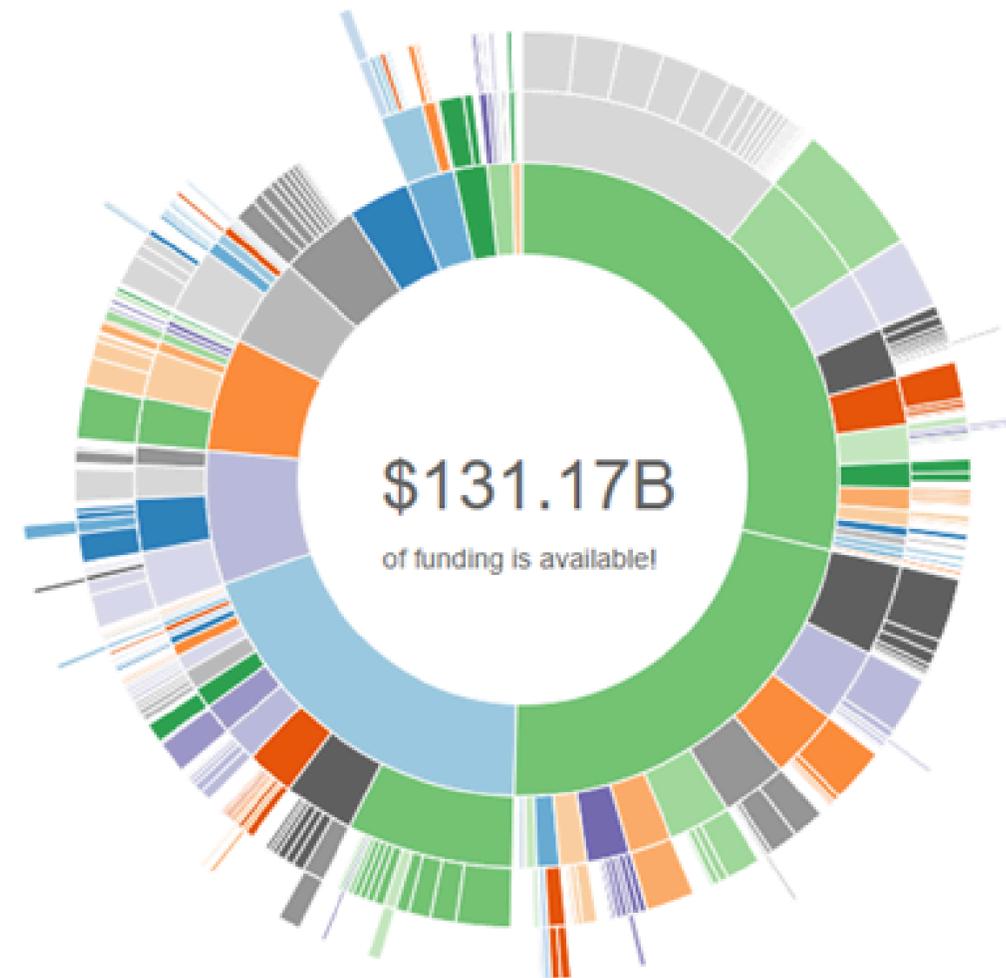

Pivot is a comprehensive database of funding opportunities.

It includes grants, fellowships, and awards across all disciplines.

Because it's comprehensive, you can find funding opportunities in one place.

It's owned by ProQuest. Mizzou faculty have access for free.

In total, it contains more than \$131 billion in funding opportunities

## Pivot funding opportunities database

HOME / SPONSORED PROGRAMS ADMINISTRATION / PIVOT FUNDING OPPORTUNITIES DATABASE

Pivot is a comprehensive database of funding opportunities that also helps you identify potential collaborators within the University of Missouri System and globally. You can establish automated funding alerts based on keywords and areas of interest.

### Getting started

The first step is to create your Pivot account and claim your profile. Those with Community of Science (COS) accounts can access Pivot with their COS credentials

# SETUP YOUR PROFILE

## Create your Pivot-RP Account

You must be affiliated with an institution that subscribes to Pivot-RP in order to create an account.

**There are two ways to create an account and access Pivot-RP.** Some institutions allow you to use your institutional login credentials, address as your user ID and create a password of your choosing.

Choose an option below. Once your account is created, you will receive a verification email.

Use Institutional Login Credentials

OR

Use E

## Sign in with your institution

Choose your Institution

If your institution is not listed [sign up using your institution email](#)

Create my account

The first time after signing in with your institutional credentials you will be prompted to verify your name, institutional email address, and our privacy consent

Use your institution/university email address. This will be your User ID.  
Create a password and select your institution from the member institution drop-down list.

**All fields required.**

# DIMENSIONS

Find funding opportunities, similar projects and potential collaborators, perform competitive intelligence, due diligence, and more.

# WHAT IS DIMENSIONS?

## An expansive research database

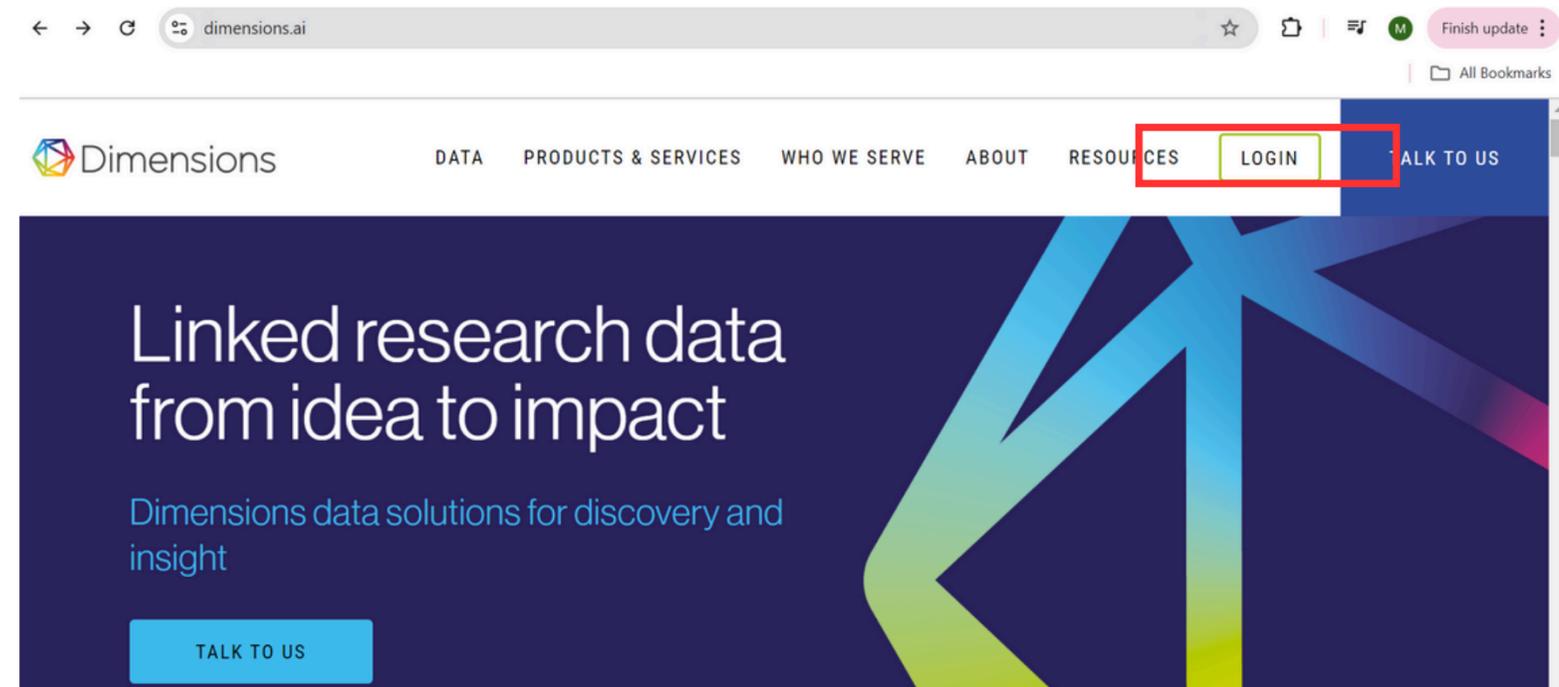

Dimensions' database includes: grants, publications, datasets, analytical views, policy documents, clinical trials, patents, and even online mentions of specific articles.

## Find funding opportunities

Because Dimensions is meant to be a one-stop database for your research needs, it lists funding opportunities found nationally and internationally.

## Perform competitive intelligence and due diligence

Access to research trends, summaries, patent activity, trust markers, overviews, repositories, and ongoing research projects from both public and private funders allows you to keep a competitive edge as you develop your proposals.

### Summary

[TL;DR](#) [Key highlights](#) [Top keywords](#)

The research paper reviews the evolving understanding of COVID-19 vaccine hesitancy, particularly focusing on pediatric vaccination. It highlights the shift from initial public acceptance surveys to analyzing vaccine uptake and the factors influencing acceptance as vaccines became available.

### Abstract

Early in the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) pandemic, before coronavirus disease-2019 (COVID-19) vaccines were authorized, surveys began tracking public acceptance of a hypothetical COVID-19 vaccine. As vaccines became more widely available, the focus shifted from evaluating premeditative thoughts about COVID-19 vaccines to observing behaviors, measuring uptake, and characterizing factors associated with acceptance. A wealth of peer-reviewed literature examining the complexities of COVID-19 vaccine acceptance has

### Summary

[TL;DR](#) [Key highlights](#) [Top keywords](#)

The research paper reviews the evolving understanding of COVID-19 vaccine hesitancy, particularly focusing on pediatric vaccination. It highlights the shift from initial public acceptance surveys to analyzing vaccine uptake and the factors influencing acceptance as vaccines became available.

### Abstract

Early in the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) pandemic, before coronavirus disease-2019 (COVID-19) vaccines were authorized, surveys began tracking public acceptance of a hypothetical COVID-19 vaccine. As vaccines became more widely available, the focus shifted from evaluating premeditative thoughts about COVID-19 vaccines to observing behaviors, measuring uptake, and characterizing factors associated with acceptance. A wealth of peer-reviewed literature examining the complexities of COVID-19 vaccine acceptance has

Faculty Insight supports faculty researchers as a search tool that enables scholars to find experts at their institution and nationally. In addition to helping scholars discover subject matter experts, Faculty Insight provides funding opportunities specifically targeted to their academic histories. Scholars may edit their own profiles by adding or removing key terms and phrases.

Faculty are able to view their Academic Analytics data in [Faculty Insight](#). You can read more about how to [review data and alert Academic Analytics of inaccuracies](#).

# NIH'S REPORT/ER

Using NIH tools and data to strategize  
your funding search

# WHAT IS NIH'S REPORT?

- One place that houses all data on funded NIH programs.
- Intended to uphold NIH's commitment to public accountability in carrying out its scientific mission.
- The research portfolio (RePORT) website provides access to reports, data, and analyses of NIH research activities, including expenditures and the results (RePORTER) of supported research.

## Goals of RePORT

- Gather all NIH data and reports
- Make these data easily accessible to the public
- Highlight the links between NIH funding and research results and products

## Can Be Used to Find Funded Research Projects in Areas Similar to Yours

- See what's already been funded
- Get additional background information on prior research
- Identify collaborators
- Find projects that awarded under similar previous FOAs

Research Organizations Workforce Funding Reports Links and Data About Contact FAQ

**NIH** RePORT  
Research Portfolio Online Reporting Tools

**RePORTER**

RePORTER Quick Search... Search

The RePORT Expenditures and Results (RePORTER) module allows users to search a repository of NIH-funded research projects and access publications and patents resulting from NIH funding. Enter just about anything in the RePORTER Quick Search box above (text, PI names, project numbers, fiscal year, agency) or launch the Advanced Search to precisely configure searches using separate search fields.

RePORTER Home Advanced Search

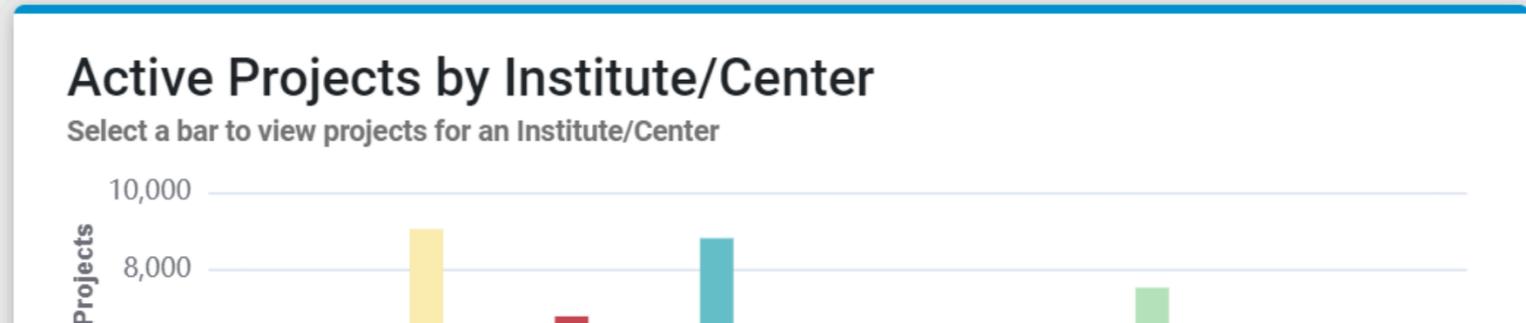

RePORTER Matchmaker Awards by Location Categorical Spending NIH Data Book

# NIH'S REPORT INCLUDES REPORTER

- RePORTER is the search function for RePORT. It includes expenditures and results.
- Updated weekly with newly funded grants.
- Projects supported by other components of the Department of Health and Human Services.
  - ACF, AHRQ, CDC, FDA
  - Projects supported by the VA.
- Information is included from NIH, extramural and intramural programs since 1985.
  - Including patents, publications, and other research outcomes.

The screenshot shows the NIH RePORTER website. At the top left is the NIH logo, followed by 'RePORT' and 'RePORTER'. On the right, there are links for 'FAQs', 'API', 'ExPORTER', and a 'Sign In' button. The main content area features a 'Quick Search' section with a search input field containing 'Search RePORTER' and a blue 'Search' button. Below the input field is a text prompt: 'Enter just about anything in the RePORTER Quick Search box above (text, PI names, project numbers, fiscal year, agency) or launch the Advanced Search to precisely configure searches using separate search fields.' An orange 'Advanced Search' button is positioned below the prompt. To the right of the search area is a 'Welcome to the NIH RePORTER' message box. The message states: 'Each award supported by NIH promotes efforts to seek fundamental knowledge about the nature and behavior of living systems and/or the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.' Below the message are two buttons: 'Guided Tour' and 'Feedback'.

# NIH'S MATCHMAKER

Finding projects like yours that have already been funded, potential collaborators, or find which Program Officials or study panels may be appropriate for your research

# WHAT IS MATCHMAKER?

## Quick Search

Enter just about anything in the RePORTER Quick Search box above (text, PI names, project numbers, fiscal year, agency) or launch the Advanced Search to precisely configure searches using separate search fields.

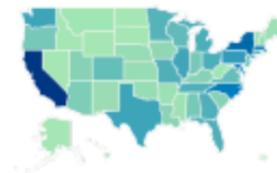

### Welcome to the NIH RePORTER

Each award supported by NIH promotes efforts to seek fundamental knowledge about the nature and behavior of living systems and/or the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.

[Guided Tour](#)

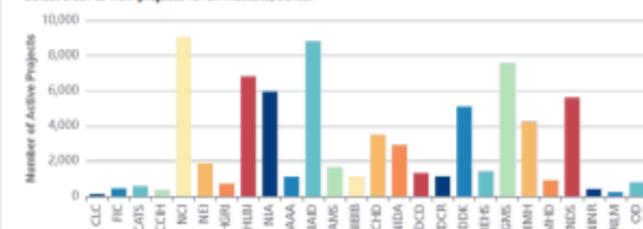

## Active Funding by State

Select a state to view projects

## Active Projects by Institute/Center

Select a bar to view projects for an Institute/Center

## Matchmaker

Enter abstracts or other scientific text to find potential Program Officials, ICs, and review panels for your research. ?

15,000 characters left

 Similar Projects  
 Similar Program Officials

## Advanced Projects Search

Search using specific criteria to find NIH projects and funding information.

[Get Started >](#)

## Publications Search

Matchmaker attempts to match keywords and concepts with similarly funded projects in NIH's database.

Unlike typical search engines, Matchmaker works best with a large amount of text. For example, a full abstract or researcher biography

It utilizes a special algorithm looks for key terms and concepts in a description. It then creates a "fingerprint" of that project it and compares it to the NIH research portfolio.

.

#### RESEARCH INTERESTS

The long-term goal of our research program is to elucidate mechanisms of obesity-associated coronary microvascular dysfunction and thereby identify novel pathways and therapeutic targets to reduce cardiovascular complications in these patients. The central premise of our work is that coronary microvascular dysfunction and the resultant impairment of coronary blood flow control is an independent predictor of cardiovascular morbidity and mortality in obese, diabetic patients. Impaired coronary microvascular function is estimated to account for more than 60% of cardiac perfusion defects in patients with type 2 diabetes. Thus, coronary microvascular dysfunction is a significant contributor to impaired cardiac function, ischemia, infarct, and mortality in these patients.

Current projects in the laboratory focus on the role of the aldosterone-binding mineralocorticoid receptor (MR) as a mediator of coronary and cardiac dysfunction in obesity. A growing body of evidence has implicated MR signaling in vascular cells as an important mediator of vascular and cardiac dysfunction in various disease states. Our studies utilize an integrative combination of *in vivo* and *in vitro* approaches including cell/tissue culture and clinically relevant mouse models coupled with molecular techniques.

# FINDING THE RIGHT FUNDER

NIH vs. the NSF

OLD MISSOURI

Old Missouri; Fair Missouri! Dear Old Varsity!

Give Aye Hoops That Fan-ty Love Thee; Here's A Health To Thee!

TRADITION

# NSF MISSION:

“To promote the progress of science; to advance the national health, prosperity, and welfare; and to secure the national defense; and for other purposes.”

# NSF'S BIG 10 IDEAS

1. Future of Work at the Human-Technology Frontier
2. Growing Convergence Research
3. Harnessing the Data Revolution
4. Mid-scale Research Infrastructure
5. Navigating the New Arctic
6. Quantum Leap
7. Understanding the Rules of Life
8. Windows on the Universe
9. NSF 2026
10. NSF INCLUDES

# **VS. THE NIH:**

“seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.”

# NIH CENTERS AND INSTITUTES

The NIH is made of 27 various institutes and centers. Each one focuses on a different aspect of human health.

Examples can be the National Cancer Institute, the National Institute on Aging, and the National Heart, Lung, and Blood Institute.

Each of these institutes may have their own funding mechanisms, or their own standards and protocols for submissions. Not all institutes offer the same mechanisms

For a list of all NIH institutes and centers, you can [click here](#).

# **UNDERSTANDING NSF FUNDING OPPORTUNITIES** and where to find them

# WHAT KIND OF RESEARCH DOES THE NSF FUND?

## **The NSF funds basic science research**

Basic science can be characterized as:

- Research questions grounded in a broad theoretical framework
- Uses scientifically sounded research methods
- Results contribute to theoretical knowledge

It does not fund:

- Clinical research
- Applied research

It does fund qualitative research.

# TYPES OF NSF PROPOSALS AND AWARDS

There are several types of awards:

- Standard or “regular” research grants
- CAREER (New Investigator) Awards
- RAPID, EAGER awards
- Doctoral Dissertation Research (DDRIs/DDRIGs)

Community Building

- Workshop/conferences
- Research Coordination Networks (RCNs)

Training

- Post-doctoral fellowships
- Research traineeships (NRTs)
- and more

As well as awards for equipment, travel, and funding for centers and facilities

# HOW THE NSF ANNOUNCES FUNDING OPPORTUNITIES

NSF announces its funding opportunities on the NSF [website](#) and on [Grants.gov](#).

NSF funding opportunities can take several forms.

01

## Program descriptions, program solicitations or announcements

NSF encourages the submission of proposals to specific program areas of interest. These can take a more general form as program descriptions and program announcements, or a more focused form as solicitations. Solicitations normally only apply for a limited period of time, while program descriptions/announcements are longer lasting.

02

## Dear Colleague Letters

Dear Colleague Letters are used to advertise opportunities for supplements to existing awards and to announce NSF's interest in receiving proposals in specific topical areas.

03

## Broad Agency Announcements

NSF uses broad agency announcements to invite the submission of proposals for some of its use-inspired research and innovation priorities.

# NSF DIRECTORATES

Each directorate encompasses a distinct area of research.

## Biological Sciences (BIO)

- Biological Infrastructure (DBI)
- Environmental Biology (DEB)
- Emerging Frontiers (EF)
- Integrative Organismal Systems (IOS)
- Molecular and Cellular Biosciences (MCB)

## Computer and Information Science and Engineering (CISE)

- Advanced Cyberinfrastructure (OAC)
- Computing and Communication Foundations (CCF)
- Computer and Network Systems (CNS)
- Information and Intelligent Systems (IIS)

## STEM Education (EDU)

- Equity for Excellence in STEM (EES)
- Graduate Education (DGE)
- Research on Learning in Formal and Informal Settings (DRL)
- Undergraduate Education (DUE)

## Social, Behavioral and Economic Sciences (SBE)

- Behavioral and Cognitive Sciences (BCS)
- Social and Economic Sciences (SES)
- Multidisciplinary Activities (SMA)

## Technology, Innovation and Partnerships (TIP)

## Engineering (ENG)

- Chemical, Bioengineering, Environmental and Transport Systems (CBET)
- Civil, Mechanical and Manufacturing Innovation (CMMI)
- Electrical, Communications and Cyber Systems (ECCS)
- Engineering Education and Centers (EEC)
- Emerging Frontiers and Multidisciplinary Activities (EFMA)

## Geosciences (GEO)

- Atmospheric and Geospace Sciences (AGS)
- Earth Sciences (EAR)
- Ocean Sciences (OCE)
- Polar Programs (OPP)
- Research, Innovation, Synergies, and Education (RISE)

## Mathematical and Physical Sciences (MPS)

- Astronomical Sciences (AST)
- Chemistry (CHE)
- Materials Research (DMR)
- Mathematical Sciences (DMS)
- Physics (PHY)
- Strategic Initiatives (OSI)

# UNDERSTANDING NIH FUNDING OPPORTUNITIES

and where to find them using NIH  
Guide

OLD MISSOURI

Old Missouri, Fair Missouri! Dear Old Varsity!

Give A Heart, That Family Love They, Here's A Health To Thee!

TRADITION

# FUNDING OPPORTUNITY ANNOUNCEMENTS (FOAS)

NIH announces funding opportunities by using FOAs.

There are three types of FOAs:

- Requests for applications (RFAs)
- Parent Announcements
- Program Announcements (PAs)

Notices of Special Interest (NOSIs) are becoming more common.

# REQUESTS FOR APPLICATIONS (RFAS)

- Narrowly defined funds
- Participating centers use “set-aside” funds in their budget to fund RFAs
  - The number of awards and amount of total funding can be found in the FOA’s award information.
- Often have a single receipt date and may not be posted again

# PARENT ANNOUNCEMENTS

- Many institutes and ICs (centers) participate in parent announcements.
- They're intended for investigator-initiated" or "unsolicited" research.
- They don't specify an area of research. They simply provide infrastructure and information needed to submit a proposal.
- They use a standard due date schedule that defines three submission, review, and award cycles per year.
- Are posted for up to three years, and then reissued.

# PARENT ANNOUNCEMENTS

Parent Announcements can be used for many things:

- Research
- Fellowship
- Career development
- Training
- Administrative supplements
- Post award administrative actions

Parent Announcements may also use a different FOA if applicants can propose **clinical trials**.

# PROGRAM ANNOUNCEMENTS (PAS)

- Highlight a specific area of focus.
- Typically on-going and awarded in increments of three years.
- They use a standard schedule, like Parent Announcements.
- There are special types of PAs
  - PAR: Program Announcements with a special receipt, referral, or review for consideration.
  - PAS: Program announcements with set-aside funds.

# NOTICES OF SPECIAL INTEREST (NOSIS)

- Highlight a specific area of scientific interest.
- Refers users to existing FOAs to use for application submission.
  - These are often parent announcements with application information.
- Increasingly used instead of program announcements.

**NOSIs include unique aspects of the funding opportunity.**

Designated FOAs include the standard grant application information.

# WHERE TO FIND FUNDING ANNOUNCEMENTS

Using NIH Guide

# FIND NIH FUNDING

·All FOAs are found on the NIH Guide for Grants & Contracts,  
or NIH Guide for short.

Weekly NIH Funding Opportunities and Notices

September 6, 2024

## General Notices

- [Notice of Early Termination of RFA-DK-25-001: Addressing the Impact of Syndemics on the Health of People with HIV and Diseases and Conditions within the Missions of NIDDK and NHLBI \(R01 Clinical Trial Optional\)](#)  
(NOT-DK-24-033)  
National Institute of Diabetes and Digestive and Kidney Diseases

## Notice of Changes to Funding Opportunities

- [Notice of Change to Key Dates Listed in RFA-AG-25-025, "Short Courses Promoting Cross-National Analyses Using Data from the International Health and Retirement Study \(HRS\) and Harmonized Cognitive Assessment Protocol \(HCAP\) R25 Clinical Trial Not Allowed"](#)  
(NOT-AG-24-064)  
National Institute on Aging
- [Notice of Correction for RFA-DE-25-004 Collaborative Science to Achieve Disruptive Innovations in Dental, Oral and Craniofacial \(DOC\) Research \(RM1 Clinical Trial Not Allowed\)](#)  
(NOT-DE-25-036)  
National Institute of Dental and Craniofacial Research
- [Notice of Participation of the National Institute of Nursing Research \(NINR\) in PA-24-141, "NIH Support for Conferences and Scientific Meetings \(Parent R13 Clinical Trial Not Allowed\)"](#)  
(NOT-NR-24-010)  
National Institute of Nursing Research
- [Notice of Change to Key Dates for PAR-24-270: ADRD Risk and Disease Following Nervous System Exposures at Biological Interfaces with the Environment \(R01 - Clinical Trial Not Allowed\)](#)

## Funding Opportunities

- [Tribal Undergraduate to Graduate Research Training and Leadership Experiences \(TURTLE\) Program \(UE5/T32\)](#)  
(PAR-24-235)  
National Institute of General Medical Sciences  
Application Receipt Date(s): Multiple dates, see announcement.
- [Tribal Undergraduate to Graduate Research Training and Leadership Experiences \(TURTLE\) Program \(UE5/T34\)](#)  
(PAR-24-236)  
National Institute of General Medical Sciences  
Application Receipt Date(s): Multiple dates, see announcement.
- [NIA Advanced Postdoctoral Career Transition Awards to Promote Diversity in Translational Research for AD/ADRD \(K99/R00 Clinical Trial Not Allowed\)](#)  
(PAR-24-271)  
National Institute on Aging  
Application Receipt Date(s): July 12, 2027
- [Clinical and Translational Science Award \(UM1 Clinical Trial Optional\)](#)  
(PAR-24-272)  
National Center for Advancing Translational Sciences  
National Center for Advancing Translational Sciences  
Application Receipt Date(s): Multiple dates, see announcement.
- [Mechanisms that Impact Cancer Risk after Bariatric Surgery \(R01 Clinical Trial Optional\)](#)  
(PAR-25-043)
